PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Developed multiple production-ready projects including e-commerce platforms and service-booking systems featuring responsive UI, RESTful APIs, and database integration. Skilled in writing clean, maintainable code with a focus on performance optimization, component reusability, and accessibility compliance (WCAG AA).

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, Bootstrap, React.js, Responsive Design, CSS Grid
Backend:	Node.js, Express.js, REST API Design
Database:	MongoDB.
Languages:	JavaScript (ES6+)
Tools & Platforms:	Git, GitHub, VS Code, Postman
Concepts:	Component Architecture, API Integration, Performance Optimization, Accessibility (WCAG AA), React, Hooks, Context API, React Router, localStorage

PROJECTS

E-Commerce Meat Shop

Html | CSS3 | Responsive Design | Git

- Developed a fully responsive e-commerce storefront with dynamic product listings, cart management via Context API, and client-side routing with React Router.
- Implemented reusable component architecture, product search and filter functionality, and a checkout flow with order summary.

Service Booking Website – Plumbing Service

HTML5 | CSS3 | JavaScript | Responsive Design | Git

- Built a responsive plumber booking platform with real-time form validation, improving data accuracy and reducing invalid submissions.
- Streamlined the booking flow and ensured accessibility compliance (WCAG AA), enhancing usability for a wider audience.
- [Link](#)

Weather Application

React.js | OpenWeather API's | CSS3 | Git

- Developed a real-time weather app integrating the OpenWeather API to display temperature, humidity, wind speed, and weather conditions by city search.
- Handled async API calls with Axios, implemented error handling for invalid city inputs, and designed a responsive UI with dynamic weather icons.
- [Link](#)

Todo Task Manager

React.js | useState | useEffect | REST API | CURD | MongoDB | CSS3

- Built a task management app using React Hooks (useState, useEffect) supporting add, edit, delete, and status-based filtering (All / Active / Completed).
- Persisted task data across browser sessions using localStorage and delivered a clean, accessible UI with full keyboard support.

EDUCATION

B.Sc. Computer Science

2022 – 2025

Chennai, Tamil Nadu | Aggregate: 68.92%

Relevant Coursework: Data Structures, Web Technologies, Database Management Systems, Object-Oriented Programming

MERN Stack Development – Certification

Sep 2025 – Mar 2026

Code99 IT Training Academy, Velachery, Chennai

English Typing Class - Certification (JUNIOR GRADE - First Class)

Feb - 2024

Government of Tamil Nadu - Department of Technical Education , Chennai
